

now you can.

• Buy a Burroughs higher speed Memory System for your . . . next generation computer

Yes, This is New! Burroughs, one of the foremost manufacturers of computers, is now making Memory Systems commercially available. They are high-speed units . . . some are higher speed than the present state of the art! See them at the Fall Joint Computer Conference, November 8-10. Full details at the show!

Burroughs Booths 835-837.
